Thanks to everyone who supported the competition, especially those who travelled such a long way on a wet day to take part and represent your club. This is the third year that the trophy has been awarded, having been won in 2010 and 2011 by MAROC. We hope that this competition will continue to develop, in keeping with the spirit in which it is intended. We thank the talented juniors who elected to run Green or above, thus giving the opportunity for developing young orienteers to become the points scorers for your team. I think we all know who would have won had every club put out their strongest possible team, but the gap is closing. We have all come a long way in the last few years to reach a stage where we can have meaningful junior competitions between our clubs. Let's all make sure it continues. **Mike Rodgers (SOA Regional Development Officer - Moray).**
